

## TRAVEL GRANTS/AWARDS

Special efforts have been taken to encourage Young Investigator participation. ASN travel awards are available and funding has been requested through NINDS for additional travel funds. Deadline for nomination materials is November 18, 2005.

### JORDI FOLCH-PI MEMORIAL AWARD

The Jordi Folch-Pi Award, to be used for travel, is given to an outstanding young investigator who has demonstrated a high level of research competence and originality, who has significantly advanced our knowledge of neurochemistry and who shows a high degree of potential for future accomplishments. The award is a cash prize of \$1,500 and the recipient has an opportunity to organize a symposium at the ASN 38th Annual Meeting being held in Cancun, Mexico.

### ASN YOUNG INVESTIGATOR TRAVEL GRANT

This grant is for Graduate students in their final year of study or scientists who received a Ph.D or M.D. within the past 6 years. Applicants must reside in the Western Hemisphere and be first presenting author of a submitted abstract.

### MARIAN KIES MEMORIAL AWARD

This is a call for nominations for the Marian Kies Memorial Award to honor a junior scientist for outstanding research conducted during graduate training. The award is named in memory of Marian Kies who devoted much of her energy and enthusiasm to fostering the development of young scientists. The award consists of \$1,500 cash prize and the opportunity to organize a Symposium for the ASN 38th Meeting being held in Cancun, Mexico.

### YOUNG LATIN AMERICAN SCHOLARS AWARD

The American Society for Neurochemistry announces the availability of scholarships for young neuroscientists from Latin American countries. These awards will provide \$2,000 in travel expenses to attend the 37th Annual Meeting of the American Society of Neurochemistry in Portland, Oregon, along with the visit, for a period not shorter than one additional week, to an established neuroscience laboratory in North America. The ASN hopes that these awards will foster mentoring relationships, to teach young scientists new techniques, and to share and encourage new ideas and approaches to neurochemical problems.

### BERNARD HABER AWARD

This award will recognize the leadership and outstanding contributions of Dr. Bernard Haber and his tireless efforts toward outreach, the formation of fruitful interactions, and lasting bonds of friendship and collaboration among the world's neuroscientists.

Dr. Haber has served ASN in many other capacities, and his dedication and energy have contributed in large part to the growth and renown of the American Society for Neurochemistry.

The award is a cash prize of \$1,500 and the recipient has the opportunity to organize a symposium at the ASN 39th Annual Meeting in Cancun, Mexico.

All nominees must submit an abstract to the 2006 Annual Meeting.

Go to [www.ASNeurochem.org](http://www.ASNeurochem.org) for eligibility and submission requirements.
